Mr. R. R. Roepke
Chemical Pharmacology Department
Experimental Therapeutics Research
Lederle Laboratories
Pearl River, New York

Dear Ray:

Many thanks for your letter with the information on the old pyrimidine mutants. This is very useful. I do not have in mind any present work with these E. coli stocks, but I did want to clarify what we should be looking out for in some studies in this metabolic area, with new mutants of *Bacillus subtilis*. It was good to hear from you again.

Sincerely,

Joshua Lederberg
Professor of Genetics
